COASTGIS 2020

Sustainable Coastal Planning in a Changing World

The CoastGIS 2020 Coastal GIS Symposium in Raseborg will be the 14th international exchange of knowledge, ideas and experience on how spatial data and information technologies aid marine and coastal zone managers and stakeholders in better understanding and managing coastal space and resources.

The theme "Sustainable Coastal Planning in a Changing World" refers to the challenges faced worldwide in light of sustainable development and emphasis will be on cooperation in spatial planning between countries. The symposium aims to address recent challenges in managing our coastlines effectively and sustainably.

Early bird registration is now open until 30 April, and we also invite you to submit an abstract for oral and poster presentations or/ and suggestions for panel sessions!
